Statistical Profiles of Public School Districts

To the Governor and the Legislature of the State of New York:

Chapter 655 of the Laws of 1987 (which amended Section 215-a of State Education Law) requires the Board of Regents and the State Education Department to submit an annual report to the Governor and the Legislature with respect to "enrollment trends; indicators of student achievement in reading, writing, mathematics, science and vocational courses; graduation, college attendance and employment rates; . . . (and) information concerning teacher and administrator preparation, turnover, in-service education and performance." The law further states that: "To the extent practicable, all such information shall be displayed on both a statewide and individual district basis and by racial/ethnic group and gender."

The annual report is presented in two parts. The first is an analysis of statewide data contained in the publication, *New York, the State of Learning: Statewide Profile of the Educational System*. The second part is the individual district profiles contained in this document. Data in both publications were derived, primarily, from information submitted by Superintendents of Schools to the Department's Information Center on Education and Division of Educational Testing. The data highlighted in the publication were selected in accordance with the specific mandates of Section 215-a of Education Law. There are, of course, other data regarding student performance, instructional programs, support services, and resources which must be considered in order to develop fully comprehensive profiles of school districts.

The information contained in this report should be helpful to the Governor, the Legislature and the citizens of New York State in assessing the effectiveness of the many educational programs supported by the State, and in working with the Board of Regents and school officials to improve learning outcomes for our children and youth.

EXPENDITURES

- **Per Pupil (CAADM):** The expenditure measure used for this calculation includes all district expenditures charged to the General, Debt Service, and Special Aid Funds, but excludes expenditures for tuition, transportation, and debt service. The pupil measure is a calculated adjusted average daily membership measure (CAADM) and includes students enrolled in district programs and handicapped pupils educated in district, BOCES, and Section 4402 programs. Prekindergarten and half-day kindergarten pupils are weighted at .5, 1988-89. Source: Second Annual School District Fiscal Profile Report.

  NOTE: All expenditure percentage calculations defined below, which appear in **Table 2** and in **Table 5.3** of the Statewide Profile of the Educational System, are based on expenditure categories as defined in the Second Annual School District Fiscal Profile Report. In particular, the total expenditure figure used for calculating the percentages **includes** expenditures for tuition, transportation and debt service.

- **Percent for Central Administration:** Expenditures for central administration divided by total expenditures of the district. Central administration expenditures include: chief school officer, business office, purchasing, personnel, public information, research, planning and evaluation, and fees for fiscal agents, 1988-89. Source: Second Annual School District Fiscal Profile Report.

- **Percent for Instruction:** Expenditures for instruction divided by the total expenditures of the district. Instructional expenditures include: salaries paid to K-12 teachers, instructional salaries for pupil personnel services, salaries for curriculum development and supervision, BOCES instructional expenditures, tuition, and other instructional expenses, 1988-89. Source: Second Annual School District Fiscal Profile Report.

- **Percent for Transportation:** Expenditures for transportation divided by the total expenditures of the district, 1988-89. Source: Second Annual School District Fiscal Profile Report.

Included in this other category are expenditures for: Board of Education, community services programs, undistributed expenses (including employee benefits), and certain interfund transfers, 1988-89. Source: Second Annual School District Fiscal Profile Report.

TEST RESULTS

- **Pupil Evaluation Program Percent Above State Reference Point:** The percent of students tested scoring above a minimum level of competence. These pupils are considered to be making normal progress in developing the basic skills of reading comprehension, mathematics and writing, 1989-90. Source: Division of Educational Testing.

- **Program Evaluation Tests:** The quartiles (for science) and the percentile ranks (for social studies) are based on frequency distributions of mean scores for all public and nonpublic schools in the state administering the science and/or social studies tests. The quartiles and percentile ranks provided for the total district represent the quartiles and percentile ranks of the "average school" in the district, 1989-90. Source: Division of Educational Testing.

- **Preliminary Competency Test Percent Above State Reference Point:** The percent of students tested making normal progress in developing the basic skills of reading comprehension and writing, 1989-90. Source: Division of Educational Testing.

- **Regents Examinations:** Percent of average 9-12 enrollment tested, percent passing of number tested and the number of students passing the examination as a percent of the average grade enrollment are shown for the following June 1990 Regents examinations: Comprehensive English, Global Studies, United States History and Government, Comprehensive French, Comprehensive Spanish, Sequence Math I, Sequence Math II, Sequence Math III, Earth Science, Biology, Chemistry, and Physics. The percent of the average 9-12 enrollment tested may be over 100 percent if the enrollment of the grade in which an examination is administered is larger than the other high school grades and all pupils in the grade took the examination. In addition, the percent may be greater than 100 percent if a large number of eighth graders are tested. Source: Division of Educational Testing.
